Ρουμανία, Sibiu, Lucian Blaga University of Sibiu RO SIBIU01

<http://international.ulbsibiu.ro/index.php/university-curricula/#>

CURRICULA OF THE "LUCIAN BLAGA" UNIVERSITY OF SIBIU
Faculty of Agricultural Sciences, Food Industry and Environmental Protection
Ba Studies:

- [Biotechnologies for Food Industry](#)
- [Control and Survey of Foods](#)
- [Engineering and Environmental Protection in Agriculture](#)
- [Food Products Engineering](#)
- [Hotel, Catering and Tourism Management and Engineering](#)
- [Montanology](#)

Ma Studies:

- [Food Quality and Safety Assurance](#)
- [Management of Modern Food Processing](#)

At the Lucian Blaga University, there is a **MANDATORY** rule for the Erasmus incoming students, to obtain **12 credits** from the 30 credits by choosing some courses from those presented below. Please consider this request by preparing the learning agreement.

Oral Communication Romanian Language - 4 ECTS
Romanian Culture and Civilization - 4 ECTS
Introduction to Accounting and Finance - 4 ECTS
Engineering Essentials - 3 ECTS
Legal Protection of Human Rights at National, European and International Level - 3 ECTS
Text – Theatre – Film. Interdisciplinary Approaches -3 ECTS
Interdisciplinary Coordinates of Bioethics - 4 ECTS
Interactions between the Human Society and Ecological Systems - 4 ECTS
Understanding the Social Environment. Theories, Methods and Practice - 3 ECTS
Biotechnology – An Introductory Course - 3 ECTS
An Introduction to Romanian Orthodoxy in the Context of World Orthodoxy - 3 ECTS

Πορτογαλία, Viano do Castello, IPVC

<https://www.ipvc.pt/en/cursos/engenharia-alimentar-2/?tab=planoestudos> (νέο)

<http://internacional.ipvc.pt/en/node/264> (επιλογή μαθημάτων **όχι** από 4^ο και 5^ο εξάμηνο γιατί διδάσκονται σε άλλο μέρος) δηλ επιλογές μαθημάτων μόνο από 1ο,2ο,3ο και 6^ο εξάμηνο του προγράμματος σπουδών.

Some classes are tutorial and the Professors teach the classes in Portuguese as well as in English. The practical classes are explained to ERASMUS students in English.

The exams are translated and the students do it in English.

The course is Food Engineering.

The study program:

1st semester

Mathematics 6ECTS

Physics 6ECTS

Chemistry 6ECTS

Biology and Biochemistry 6ECTS

Introduction to Industrial Processes 6ECTS

2nd semester

Food Chemistry Laboratories 6ECTS

Food microbiology laboratories 6ECTS

Sensory analysis and rheology laboratories 6ECTS

Unit Operations 6ECTS

Algebra and Statistics 6ECTS

3rd semester

Dairy Technologies 6ECTS

Dairy Quality Analysis and Control 6ECTS

Wine and other Alcoholic Beverages Technologies 6ECTS

Analysis and Quality Control of Wine and Other Alcoholic Beverages 6ECTS

6th Semester

Food Process Design 6ECTS

Treatment of Effluents and Waste 6ECTS

Food Safety Management Systems 6ECTS

Emerging coatings and technologies 6ECTS

Industry and Food Innovation 6ECTS

Project in Food Engineering 6ECTS

Γερμανία, Hochschule Trier, Food Technology

Α Προσφέρονται στα Αγγλικά τα παρακάτω μαθήματα από το πρόγραμμα σπουδών

Summersemester:

- Unit Operations (Emulsification, Filtration, Crystallisation): In this subject student need to give two presentations on subjects concerning unit operations in Food Science. The subjects are selected on their own. One presentation is usually held in German, the second one in English. If a student from abroad is also joining, both presentations will be held in English
- Applied statistics in Sciences (Seminar will be held when more than 3 students are interested).
- Produktdesign (both: German and English possible. Comparable with unit operations)
- Food Science in everyday life (Seminar)

Wintersemester:

- Applied statistics in Sciences (This subject is now given in German. If more than 3 students from abroad are interested, additionally a seminar will start in English)
- Food Science in everyday life (Seminar)

All other modules are taught exclusively in German.

Β Ειδικό νέο πρόγραμμα για ξένους φοιτητές (εαρινό εξάμηνο) [Study Semester "Food Economy and Process Technology" \(hochschule-trier.de\)](http://hochschule-trier.de)

COURSE CATALOG: FOOD ECONOMY AND PROCESS TECHNOLOGY:

Translation biological
engineering PDF 2019

Βέλγιο, Odisse University of Applied Science, Faculty (cluster): Biotechnology, Dept (Programme): Agro- and biotechnology) at Campus Sint-Niklaas

Συνδυαστικά: Πτυχιακή 9ECTS και πρακτική 15ECTS (συνήθως σε βιομηχανία
τροφίμων)

The only Erasmus courses Odisee programme can offer is in a traineeship programme
and/or bachelor's thesis (in english).

The courses below are taught in Local Language:

Which campus offers what course: depends on the course... if
they are part of the chemistry (or other technology) program,
they are organized in Ghent.

**If they are part of the agro- and -biotechnology program,
they are taught in Sint-Niklaas.**

From the *cluster* (= faculty) of *(Bio)Technology* all programs
except Agro- and Biotech are located in Ghent

Also a lot of courses are also offered “in distance education”,
which means that they are in some way recorded and digitally
offered, so students (sometimes) do not need to physically
attend classes (with the exception of lab classes, of course).

In any case, although it takes about an hour to travel from the
campus of Ghent to the campus of Sint-Niklaas, there is very
good public transport, so occasionally a course on another
campus shouldn't be a problem (of course, only occasionally).

Ισπανία Leon

The best choice for your students would be to attend the courses in Spanish (study plan: <https://www.unileon.es/estudiantes/estudiantes-grado/oferta-de-estudios/planes?titula=0107>). Therefore, it would be strongly recommended that your students get a Spanish language certificate, such as B1 level, in order to follow properly the lectures
