

ICM Erasmus+ Report on mixed mobility to Bahir Dar University Ethiopia, 12-18 June 2023

by Kanellou Anastasia

Staff from the Food department UniWA visited the Bahir Institute of Technology at Bahir Dar University, met the Dean of the Faculty and staff, the head of the institute with its board. Meeting with staff followed, and many labs and departments visit did take place. Future Erasmus collaboration options were discussed, particularly to reapply upon the upcoming ICM Erasmus+ call, the Intrafrica project and potential other EU and UK fundings.

The academic Erasmus supervisor of the Dept of Food Science and Technology (Anastasia Kanellou) presented UniWA and particularly the Food Science and Technology dept. She also gave her lessons entitled “Sustainable diets” including interactive links to evidence-based data, based on a good practice experienced during the Covid pandemic online lessons.

She was given to opportunity to use interactive training techniques with available advanced multimedia equipment at the BIT and strongly recommends the multiple approach when teaching as a good practise.

The short announcement of this visit was uploaded to social media, by the communication officer of the Institute, which is considered a good practice to easily disseminate the activities/events and similar
