

Participation to GreenNutriFood 2025

Associate Professor Andriana Lazou and post graduate student Eris Tsompanidou attended the 1st International Congress on Sustainable Food, Green Chemistry and Human Nutrition (GreenNutriFood 2025) on 7-9 April in Dubrovnik and presented the work entitled “Structural and Textural modifications of peaches during storage”. This work was funded under the framework of research project entitled “Optimization of the quality of peach and nectarines through the application of innovative post-harvest handling”, funded by Ministry of Rural Development and Food, Metro 16 – Collaboration.
